
TANFIELD CHAMBERS

DIVERSITY 2019

This is a summary of the diversity of chambers in line with the Bar Standards Board Handbook Equality Rules. It is a snapshot of chambers as of 8th January 2019 and is based on responses to a monitoring questionnaire sent out to all members of chambers in relation to gender and age; facts otherwise unknown.

Given the reliance on responses from members of chambers and the fact that not all responded or provided fully completed details, each category has been assessed on the number of those responding. Further, where a category had less than 10 people responding and any of those failed to consent to disclosure of the data, that category has been omitted.

GENDER

All Chambers: Female: 27 (34%) Male: 52 (66%)

QC: F: 1 (17%) M: 5 (83%)

NonQC Tenants: F: 15 (28%) M: 38 (72%)
